

Telly Award Winning Television Program in the U.S.

I produce a weekly television program for The Outdoor Channel. Our program is seen in more than 26 million homes nationally in the U.S. plus Canada, Mexico and all satellite feeds.

The ***Casablanca Prestige*** is our editor of choice. I have been editing with ***Casablanca*** non-linear editors for more than five years with amazing results. We have just won our third coveted ***Telly Award*** with critical acclaim both for "content and editing professionalism." The Prestige excels in dependability which is crucial in broadcast television.

I am a very satisfied Casablanca customer and love my Prestige.
